Objective

To create a friendly work environment while providing professional-quality audio.

Qualifications

I have been fortunate and smart enough to surround myself with some of the best professionals around, which has in turn allowed me to operate the right way, with the right stuff, and with the right knowledge. I've been thrown, pushed, pulled, and walked into many different situations that have undoubtedly prepared me for whatever may come next. Originating from a post-production background allows me to completely understand what's acceptable and what isn't, and why.

Education

Bachelor of Arts in Communication, December 2005

The University of Alabama, Tuscaloosa, AL

Major: Telecommunication and Film, Concentration in Non-linear Editing

Minor: Marketing

Work History and Credits

I started out as an assistant offline editor for a small, but reputable turnkey production company in Tuscaloosa, AL. As time took its course, I slowly branched out into production and thus location sound. I have since had nothing but happy producers, and even happier editors for projects ranging from commercials and industrials to reality shows and feature-length productions. I've done full seasons on shows like CMT's *Dallas Cowboys Cheerleaders: Making the Team* and just a week at a time on shows like NBC's *The Biggest Loser* when they come in town.

Having been in audio supervisory roles on some shows (*DCC: Making the Team, Whose Wedding Is It Anyway?*), I have the experience and ability to make the right decisions at the right time. Schedules get out of whack, weather rarely cooperates, and "talent" doesn't always cooperate...and that's why I stick to sound. I can control most of the variables (excluding planes, trains, and automobiles) and do it well. Whether you're multi-tracking or hopping to a few cameras, don't be surprised when you don't notice me; it just means I'm doing my job right!
